TO PARDON "FRENCHY."

"Frenchy," now serving a life sentence at the State Prison Insane Asylum at Matteawan, for the murder of "Old Shakespeare," may soon go free. The new evidence recently discovered in this case which would tend to prove Frenchy's innocence was laid before District Attorney Philbin recently, and today he announced that he would write to Gov. Odell to-morrow, recommending the pardon for the insane convict.

Athletic Sons of Fat Fathers Tell Their Forebears to "Abscond to Second" and "Embezzle Third."

The married men and single men of the American Exchange National Bank were arrayed against each other in baseball battle royal on the parade ground of Prospect Park, Brooklyn, yesterday afternoon. The future bank presidents, from cashier down to office boy, played for two hours, while wise bankers and brokers, from columns of vantage on the grass, yelled encouragement.

The cheering comments of these spectators were somewhat ambiguous, being a peculiar admixture of the vernacular of the financial district and the polo grounds, but it was plain that they meant well, and enjoyed the spectacle with all the abandon of boyhood. As for the players, their enthusiasm is shown by the score—5 to 11 in favor of the single men.

The efforts of the younger men to reduce the proud, fat fathers to a state of sporting dejection began at 4.20 o'clock. From then until the final run at the close of the sixth inning the instinctive yearning which lays deep in the soul of every good American, "tune went at a baseball game, was given free rein. Dignified gentlemen, with white hair, covered by shiny silk hats, grew red in the face shouting such earnest admonitions as:

"Slide, you lobster, slide!"

"The younger men were seriously arrayed in shirts of bright green, pink and blue, with white hose and tanned shoes. The benefactors were not prepared for such an array of color and wore only a modest gray."

From the beginning of the game to the end the action was rapid. The game went at a common as peanuts, and there seemed to be a continuous procession around the bases. In the first inning the married men made sixteen runs, while the single men wound up with fifteen.

The two teams were as follows: Married Men—Fox, pitcher; Lamb, catcher; Hahn, first base; Benoit, second base; Lee, third base; Siebert, shortstop; Ed Burns, left field; Ritz, right field; Hahn, center field; Substitutes: C. Walsh, Frazee and W. Jarvis.

Single Men—C. Doyle, pitcher; W. J. Stewart, catcher; B. Schuyler, first base; A. D. Coe, second base; Clinkerbroome, third base; Lindway, shortstop; Smith, left field; Murray, right field; Fardon, center field; substitutes, Smith, O'Meara and Halliday.

Umpire—B. Hubbell, of Dumont, N. Y.

In full playing attire.

Following is the score:

THE SKIN An Index to the Blood.

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is provided with certain soft glands which pour out upon it an oily substance, keeping the skin pliable and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly manifests itself upon the skin in the form of

Internal and External Poisons

of sores and ulcers, pimples and various eruptive diseases. By the character of the sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood, the application of powders, soaps and lotions to the skin, though often doing immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disgusting blackheads, blotches and irritating, itching eruptions, but improves your general health. S. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the safest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and skin diseases, and you can have the best medical advice without cost. Book on Blood and Skin Diseases.
